

VB DIGITAL ID CARDS

SAAS WEB APPLICATION PROPOSAL

Professional Project Documentation

Prepared For	VB Digital ID Cards
Application Name	VB Digital ID Cards Management System
Document Version	1.0
Project Type	Multi-Tenant SaaS Web Application
Estimated Timeline	6-8 Weeks
Project Budget	₹95,000 INR

VB Digital ID Cards

1. Executive Summary

VB Digital ID Cards proposes the development of a modern SaaS web application to streamline school ID card management operations. The platform will provide secure, scalable, and centralized management for schools, teachers, students, ID card generation, and cloud-based storage workflows.

2. About VB Digital ID Cards

VB Digital ID Cards specializes in providing digital ID card solutions, school pamphlets, and certification services for educational institutions. The proposed application aims to digitize operational workflows and improve overall business efficiency.

- School ID Card Solutions
- School Pamphlet Design Services
- Certification Services
- Digital Workflow Automation
- Centralized School Management

3. Project Overview

3.1 Project Name

VB Digital ID Cards Management System

3.2 Project Description

The application is designed as a responsive and secure SaaS platform capable of managing multiple schools independently. It will provide role-based access for super admins, school admins, and class teachers while supporting ID card generation workflows and Google Drive integration.

3.3 Project Objectives

- Digitize school ID card workflows
- Reduce manual paperwork and operational delays
- Enable centralized student and teacher management
- Generate printable ID cards dynamically
- Provide responsive and user-friendly interfaces
- Maintain secure cloud-based data storage

4. Scope of Work

4.1 Inclusions

- Responsive Web Application Development
- Requirement Analysis & Planning
- UI/UX Design
- Frontend Development
- Backend Development
- Database Design

VB Digital ID Cards

- Authentication System
- Google Drive Integration
- Testing & QA
- Deployment Assistance
- Technical Documentation

4.2 Exclusions

- Hosting and cloud infrastructure fees
- Third-party premium services
- Mobile application development
- Advanced analytics modules
- SMS/WhatsApp integrations

5. Proposed Solution

5.1 Key Features

- Multi-role Authentication System
- School & Teacher Management
- Student Profile Management
- ID Card Template Upload
- Dynamic ID Card Generation
- PDF/Image Export
- Google Drive Integration
- Dashboard & Reports
- Responsive UI Design

5.2 User Roles

- Super Admin – Manage all schools, templates, and overall operations
- School Admin – Manage teachers, classes, and school operations
- Class Teacher – Add student data and upload photographs

6. Technology Stack

Layer	Technology
Frontend	Next.js / React.js
Backend	Node.js / Express.js
Database	PostgreSQL
Storage	Google Drive API
Authentication	JWT Authentication
Deployment	Vercel / VPS Hosting
Version Control	GitHub

7. Development Methodology

- Requirement Gathering
- UI/UX Planning
- Agile Sprint Development
- Testing & Quality Assurance
- Client Review & Feedback
- Deployment & Support

8. Project Timeline

Phase	Duration	Timeline
Requirement Analysis	1 Week	Week 1
UI/UX Design	1 Week	Week 1-2
Core Development	3 Weeks	Week 2-5
Testing & QA	1 Week	Week 6
Deployment	1 Week	Week 7-8

9. Pricing & Payment Terms

Estimated Development Cost: ₹95,000 INR

Milestone	Phase	Amount	Timeline
1	Project Start	₹35,000	Initial
2	Mid Development	₹30,000	Mid Project
3	Final Delivery	₹30,000	Project Completion

10. Deliverables

- Complete SaaS Web Application
- Responsive User Interface
- Source Code
- Database Configuration
- Technical Documentation
- Deployment Setup
- Basic Training & Support

11. Risk Management

Risk	Mitigation Strategy
Scope Changes	Requirement approval before development
Timeline Delays	Agile sprint monitoring
Technical Issues	Use of proven technologies
Security Risks	Industry-standard security implementation

12. Maintenance & Support

- 15 Days Free Bug Support
- Deployment Assistance
- Performance Optimization
- Technical Assistance

13. Acceptance & Approval

By signing below, both parties agree to the terms and scope outlined in this proposal.
